**GENERAL PROCUREMENT NOTICE**

**Programme Name: Ukraine Transition Programme (UTP) to NEFCO** Green Recovery Fund for Ukraine

**Project Name:** "Reconstruction of Two Wastewater Pumping Stations and Pressure Sewage Collector in Pivdennoukrainsk"

**Country:** Ukraine

**Sector:** Wastewater management

**Sources of Financing:** The Government of Denmark via the Ministry of Foreign Affairs of Denmark ("MFA Denmark") within «Ukraine Transition Programme» to NEFCO Green Recovery Fund for Ukraine and local co-financing.

**Procurement:** Works, Goods and Services

**Notice Type:** General Procurement Notice

**Publication Date:** 3 November 2026

**Closing Date:** 3 November 2027

The Grant Beneficiary, Pivdennoukrainsk City Council, together with the Recipients of the Project, intends to invite tenders for the works, goods and services required to implement the project "Reconstruction of Two Wastewater Pumping Stations and Pressure Sewage Collector in Pivdennoukrainsk" (the "Project"). The Recipients are Municipal Enterprise "Heat Supply and Water and Sewerage Utility" of the Pivdennoukrainsk City Council (EDRPOU code 31948866) and the Department of Housing and Communal Services of the Pivdennoukrainsk City Council (EDRPOU code 44342464).

The Project and the related procurement are financed by grant funds provided by the Government of Denmark through MFA Denmark, administered by the Facility Manager and development partner – NEFCO, as well as by co-financing from Pivdennoukrainsk City Council.

The purpose of the Project is to improve the reliability, energy efficiency and operational resilience of the wastewater collection and transportation system in Pivdennoukrainsk, Mykolaiv Region. It aims to ensure uninterrupted wastewater services under wartime conditions and to reduce environmental risks, including the risk of untreated wastewater discharges into the Southern Bug river basin, for about 42,400 residents, including about 4,000 internally displaced persons.

The scope of the Project includes, but is not limited to:

- assessment of the condition of existing building structures, development of design and estimate documentation, including engineering surveys and the state expert review report;
- reconstruction of Wastewater Pumping Stations WWPS-2 and WWPS-3, including replacement of main equipment and supporting ventilation systems;
- civil works including building insulation and surface repairs, new roofs and window/door replacement, waterproofing; WWPS conversion for submersible pumps;
- installation of pipes, fittings and valves, including the piping and connections of the new pumping equipment in the pump rooms; installation or replacement of mechanical equipment in the reception chambers of WWPS-2 and WWPS-3 (penstocks/sluice gates, gate valves, automatic bar screens, screw conveyors and wash presses);
- installation of variable frequency drives, transformers and electrical cables, and rehabilitation of power supply infrastructure;
- installation of SCADA and monitoring systems;

- installation of photovoltaic (PV) systems at the WWPS-2 and WWPS-3 sites, with battery storage at WWPS-2;
- installation of a new DN 500 pressure pipeline (approx. 4.3 km) from WWPS-3, with a new switching chamber connecting to the existing siphon pipeline;
- associated site works, including access roads, fencing and site reinstatement;
- supply of spare parts, testing, commissioning and training of operating staff.

Given the range of mechanical, civil, pipeline, electrical and renewable energy works, potential tenderers are encouraged to consider forming consortia or joint ventures to submit comprehensive tenders.

Tendering is expected to start in December 2026. Contract award and commencement of works are planned for the second quarter of 2027, with completion of works no later than the fourth quarter of 2028.

Tenders and subsequent contracts financed from grant and budget funds shall be subject to NEFCO's Procurement Policy and Procedures (2021).

Grant and budget funds may not be used for any payment to persons or entities, or for any import of goods, if such payment or import is prohibited by a decision of the United Nations Security Council taken under Chapter VII of the Charter of the United Nations, or under the laws or official regulations of Ukraine.

Specific invitations for tenders will be published on the website of Pivdennoukrainsk City Council (yu.mk.ua), the website of Municipal Enterprise "Heat Supply and Water and Sewerage Utility" (kptvkg.com.ua), the Prozorro electronic procurement system (prozorro.gov.ua)
and on NEFCO's website (www.nefco.int, Procurement Notices). Requests for further information shall be

submitted in writing by e-mail to:
