This Invitation to Tender follows the General information about procurement under DemoUkrainaDH, available on <https://dh-ukraine.nefco.org/procurement/>

### ***Purchaser:***

Uman Municipal Utility "Umanteplokomunenergo"

Address: 20300 Cherkasy region. Uman, 12A Tyshchyka Str.

Reg. no: 02082675

The project organisation during the tender period will consist of employees from the Purchaser assisted by consultants from ÅF-Industry AB, Sweden including the local consultant SEC Biomass, Ukraine.

### ***Project:***

The Purchaser intends to procure, install and put into operation new equipment in Individual Heating Substations (IHS) – in direct translation into Russian language Individual Thermo Points (ITP). The Contract includes delivery of the equipment and materials, supervision of installation, commissioning of the equipment and training as well as support to the Purchaser in preparation of Design Documentation. The main part of the Scope of Supply is:

- twelve (12) Individual Heat Substations (IHS)

### ***Tendering and Contracting Procedures:***

The Purchaser intends using proceeds of a loan from Nordic Environment Finance Corporation (NEFCO), for eligible payments under the contract for which this tender is made.

The Purchaser now invites sealed tenders from contractors for the following contract to be funded from the proceeds of the loan.

The contract will be a Supply contract with additional Services based on Orgalime S 2012 and S 2012 S for Supervision Services. The project implementation period is August – October 2020 with intended commissioning as soon as possible after start of heating season 2020.

The tendering procedure and the contract will be subject to NEFCO’s Procurement Guidelines, which follow internationally recognised practices applied by International Financial Institutions (IFIs). The tender is open to firms from any country, provided that the firm is not ineligible or

prohibited from bidding under national or international law or are subject to sanctions imposed by the European Union or the United Nations Security Council.

The tenderer must meet following qualification criteria, further detailed in the Tender Documents:

- To have at least 5 projects with delivery of IHS during the past 3 years
- To have an average annual turnover at least EUR 1 million during the last 3 years
- To have an available service organisation in Ukraine

The tender evaluation will in addition to the tender price include assessment of the offered plant and equipment and compliance with the DemoUkrainaDH objectives as a demonstration project.
