Application Form

For the Nefco SME Green Recovery Loan Programme

The Nefco SME Green Recovery Loan Programme is available to Nordic small and medium-sized enterprises (SMEs) with commercialised green solutions that face challenges to realising green recovery investments and international growth.

Nefco-provided financing should be used for activities that support international growth outside the Nordic region, such as international business development and sales, investments aimed at internationalisation and/or as working capital to maintain or further develop international operations and business activities. Loans offered under this scheme <u>cannot</u> be used to repay existing debts.

Nefco SME Green Recovery Loan details:

- Possible loan amount ranging from EUR 100,000 to EUR 500,000
- Maximum loan maturity is 5 years (maximum 3 years for bullet loans)
- Repayment in equal semi-annual instalments or at the end of the loan term (bullet loans)
- Interest rate on market terms
- Loans offered do not require security from the borrower.
- Establishment fee of EUR 1,500 payable after the signing of the Loan Agreement

Financial requirements of borrower:

- Solidity ratio of at least 25 % (measured after Nefco investment)
- At minimum of EUR 100,000 in equity, and at least equal to the loan amount to be provided by Nefco
- A minimum of 3 consecutive years of sales revenue

In addition to this application, the applicant company is requested to submit the appendices specified in section **5**. Appendices.

Nefco uses the <u>EU Taxonomy</u> as its primary classification system to identify projects that are considered environmentally sustainable. In addition, Nefco will evaluate the applications using criteria that it has developed during the course of its operations. Please note that applicants may be asked to fill in a separate Environmental, Social and Governance (ESG) questionnaire at a later stage.

NEFCO

1. Contact information

1.1 Applicant company

Business ID code:	Postal code:
Company name:	City & Country:
Street address:	Website:
P.O Box:	Phone/Switchboard:

1.2 Managing director 1.3 Company financial manager

1.4 Company contact person	1.5 Nefco contact person
	Phone:
Phone:	Email:
Email:	Job title:
Name:	Name:

Name:	Does the company currently have a contact person at Necfo?
Job title:	NO
Email:	YES
Phone:	

2. Applicant company information

2.1 General information

Year of estab	Year of establishment:		Owners and ownership share: Specify direct and ultimate owners and their shareholdings as per
Industry:			
lf other, pleas	e specify:		
Number of er	nployees:		
Men:	Women:	Total:	
Number of be	pard members:		
Men:	Women:	Total:	

2.2 Applicant company's main financial figures for the last three financial years

Currency:		
Turnover		
EBITDA		
Equity		
Shareholder loans		
Total assets		
Solidity ratio		

Comments:

2.3 Existing liabilities

Please list all long- and short-term bank loans, other interest-bearing debt, shareholder loans and other subordinated loans and provide the <u>main terms</u> for these liabilities.

2.4 Description of applicant company and its business activities

2.4.1 Describe the applicant company and its business concept:

Company introduction, recent history and milestones, business model, key activities, resources and partners, active business functions, production facilities and machines, etc.

2.4.2 Describe the company's products, services and solutions and the technology behind them: Detailed description of the company's products and/or services, technological and commercial readiness of company's solution(s), etc.

2.4.3 Describe the company's operating environment and future outlook:

Market areas, target customers and sectors, sales channels, current market trends, competitors, other stakeholders, future outlook for commercial activities, etc.

2.4.4 Describe previous reference projects relevant to this application: Provide reference cases that demonstrates the technology's commercial viability.

3. Nefco SME Green Recovery Loan

3.1 Background for application

3.1.1 Select the main reasons why the company is applying for the SME Green Recovery Loan:		
Loss of income	Increased liquidity needs	
Supply chain disruptions	Additional investment requirements	
Difficulties obtaining debt-financing	Other, please specify:	
Decline in demand for company's products/services		
3.1.2 Challenges to realising green recovery inves Describe the applicant company's reasons for submitting t	-	

3.1.3 Describe why the SME Green Recovery Loan would be important for the company:

Nefco Ioan application - SME Green Recovery Loan Programme

Page 6 of 13

3.2 SME Green Recovery Financing

3.2.1 Project Description: Describe the internationalisation project or activities, business idea and commercial targets, target markets, partners, etc.

3.2.2 Capital requirements and financing plan for the project as described in 3.2.1

Currency:	Amount	Share (%)	Financing plan:	Amount	Share (%)
Total capital requirement:			Equity contribution/Own funds		
Operating expenditures					
Capital expenditures			Shareholder loans		
			Nefco Green Recovery Loan		
Other expenditures			Other bank loans		
Total			Other financing		
If necessary, provide a more deta budget; please use template prov submit as a separate annex to thi	ided (<mark>link</mark>) and		Total		

Comments on the investment and financing plan:

3.3 SME Green Recovery Loan

3.3.1 Nefco loan details	
Loan amount applied for: Min. EUR 100,000, Max. EUR 500,000	Preferred maturity of loan (years): Maximum 5 years with repayments in equal semi-annual instalments
Preferred loan structure: Maximum 3 years for bullet loans with repayment of the at the end of the loan term.	Maximum 3 years for bullet loans with repayment of the entire principal at the end of the loan term.
Equal instalment Bullet loan	
The offered loan structure will be determined by Nefco's risk assessment	
3.3.2 Purpose of the Nefco loan	
Working capital needs Investments aimed at internationalisation International business development and sales Other, please specify:	Nefco-provided financing should be used for activities that support <u>international growth</u> , which includes international business development and sales, investments aimed at internationalisation, and/or as working capital needed to maintain or further develop international operations and business activities.
3.3.3 Describe in detail how the funds from Nefco will	be used as indicated by the categories above

3.3.4 Financial projection for the Nefco loan period

Please submit a detailed financial projection for the Nefco loan period as a separate annex to this application. Use the template provided (<u>link</u>).

Nefco Ioan application --- SME Green Recovery Loan Programme

4. Environment

4.1 Describe the environmental impacts of the applicant's business activities

Impacts can relate directly or indirectly to the manufacturing, sales and distribution of goods or services to the market or to other activities undertaken by the company. Provide information under each relevant environmental objective below.

4.1.1 Climate change mitigation For example: renewable energy production, increasing energy efficiency, clean and carbon- neutral mobility, carbon capture and utilisation/ storage, strengthening land carbon sinks, switching to the use of renewable materials, production of clean fuels and activities enabling substantial greenhouse gas emissions reductions in other sectors (such as establishing energy infrastructure required for enabling the
decarbonisation of energy systems)
Positive impacts:
Possible adverse impacts and planned measures to mitigate these:
For example: significant increase of GHG emissions, significant long-term reduction of carbon sinks
4.1.2 Climate change adaptation
For example: reducing material physical climate risks, reducing vulnerability and building residence of a wider system such as community,
For example: reducing material physical climate risks, reducing vulnerability and building residence of a wider system such as community, ecosystem or city, or supporting/ enabling adaptation by others
For example: reducing material physical climate risks, reducing vulnerability and building residence of a wider system such as community,
For example: reducing material physical climate risks, reducing vulnerability and building residence of a wider system such as community, ecosystem or city, or supporting/ enabling adaptation by others
For example: reducing material physical climate risks, reducing vulnerability and building residence of a wider system such as community, ecosystem or city, or supporting/ enabling adaptation by others
For example: reducing material physical climate risks, reducing vulnerability and building residence of a wider system such as community, ecosystem or city, or supporting/ enabling adaptation by others
For example: reducing material physical climate risks, reducing vulnerability and building residence of a wider system such as community, ecosystem or city, or supporting/ enabling adaptation by others
For example: reducing material physical climate risks, reducing vulnerability and building residence of a wider system such as community, ecosystem or city, or supporting/ enabling adaptation by others
For example: reducing material physical climate risks, reducing vulnerability and building residence of a wider system such as community, ecosystem or city, or supporting/ enabling adaptation by others
For example: reducing material physical climate risks, reducing vulnerability and building residence of a wider system such as community, ecosystem or city, or supporting/ enabling adaptation by others
For example: reducing material physical climate risks, reducing vulnerability and building residence of a wider system such as community, ecosystem or city, or supporting/ enabling adaptation by others
For example: reducing material physical climate risks, reducing vulnerability and building residence of a wider system such as community, ecosystem or city, or supporting/ enabling adaptation by others
For example: reducing material physical climate risks, reducing vulnerability and building residence of a wider system such as community, ecosystem or city, or supporting/ enabling adaptation by others Positive impacts:
For example: reducing material physical climate risks, reducing vulnerability and building residence of a wider system such as community, ecosystem or city, or supporting/ enabling adaptation by others Positive impacts: Possible adverse impacts and planned measures to mitigate these:
For example: reducing material physical climate risks, reducing vulnerability and building residence of a wider system such as community, ecosystem or city, or supporting/ enabling adaptation by others Positive impacts:
For example: reducing material physical climate risks, reducing vulnerability and building residence of a wider system such as community, ecosystem or city, or supporting/ enabling adaptation by others Positive impacts: Possible adverse impacts and planned measures to mitigate these:

4.2 Contribution to energy efficiency and emissions reductions

Present the potential positive environmental effects of the applicant's business activities in quantifiable terms. For example: energy consumption saved (MWh/year), reduced water usage (tonnes/year), emission reduction (e.g.tonnes of CO₂ eq /year). Specified as actual or percentage change.

5. Appendices

When submitting this application form on the following page please attach the applicable appendices and indicate with the checkboxes below the appendices that you will include with this application.

5.1 Required appendices

The applicant company's three (3) latest audited annual financial statements

Approved auditor's statements

If auditor's statement is not included in the annual financial statements

Interim figures if financial records are older than six (6) months Profit and loss statement and balance sheet

Financial statements for the group (If applicable)

Cash flow projections for the preferred Nefco loan period (template attached here)

Confirmation letter of the <u>euro bank account number</u> from the company's bank Note: the letter should be sent directly via email to Nefco from the company's bank contact person

Applicant company's certificate of registration documents Firmaattest fra foretaksregisteret (NO), Utdrag ur Handelsregistret/Kaupparekisteriote (FI), Registreringsbevis (SE), Tegningsudskrift fra Erhvervs- og selskabsstyrelsen (DK), Certificate of Registration from the Skráasvið – Register of Enterprises (IS)

5.2 Additional appendices

Investment budget and financing plan (template attached here if needed)

Additional attachments relevant to the application

Letter of Intent (LoI), Memorandum of Understanding (MoU), company business plan, technical data sheet, etc.

Nefco loan application --- SME Green Recovery Loan Programme

6. Approval and submission

How did you hear about the SME Green Recovery Loan from Nefco?

I have read and agree to the terms laid out in Nefco's privacy policy (link).

As **CEO** or other **authorised representative** of the company, I hereby declare that the information given on this form is true and correct
