

For scaling up
green solutions on
global markets

Fast-track loan
financing

To accelerate the
green transition

Nefco is offering fast-track green recovery financing for Nordic small and medium-sized companies (SMEs). The Green recovery financing can be used to finance investments and business activities in support of international growth outside the Nordic countries. Our aim is to help your green business grow on global markets and to accelerate the scale-up of Nordic green solutions. We are ready to take financial risks if there is a green upside.

For whom

- Nordic small and medium-sized enterprises (SMEs) with commercialised green solutions that face challenges to realising green recovery investments and international growth.

How to apply

Download the application form available on our website: www.nefco.int/green-recovery and fill it out using Adobe Reader. Please contact our investment managers for more information.

Financial requirements of borrower

- Equity ratio of at least 25% (measured after Nefco investment)
- At least EUR 100,000 in equity or the same as the loan amount applied for
- At least 3 consecutive years of sales revenue

Terms and conditions

- Loans ranging from EUR 100,000 to EUR 500,000
- Loan maturity is max. 5 years
- Repayment in equal semi-annual instalments
- Interest rate on market terms, indicatively 8-12%
- Loans offered do not require security from the borrower
- Establishment fee of EUR 1,500 payable after the signing of the Loan Agreement

Where and how

- For investments and working capital related to the company's internationalisation outside the Nordic countries Environmental requirements: The financing provided should contribute to one or more objectives from the EU Taxonomy
- Applications are processed via a fast-track mode

Scope of project

Activities that support international growth, investments aimed at internationalisation and capital needed to maintain international operations and business activities, in sectors such as:

- | | |
|-----------------------|-----------------|
| ▪ renewable energy | ▪ agriculture |
| ▪ energy efficiency | ▪ food industry |
| ▪ building technology | ▪ materials |
| ▪ waste handling | ▪ industry |
| ▪ water technology | ▪ aquaculture |

Complementary funding

Nefco also offers support to Nordic SMEs to conduct feasibility studies or demonstration projects in new markets outside the EU/EEA.

About Nefco

Nefco, the Nordic Green Bank, finances the initial scale-up of Nordic green solutions on global markets. Founded in 1990 by the five Nordic countries, we serve the interests of our owners, Denmark, Finland, Iceland, Norway and Sweden.

Our task is to work with concrete actions to accelerate the green transition. To date, more than 600 Nordic growth companies have received financing through us.

We evaluate the impact against the EU Taxonomy, the UN Sustainable Development Goals and our own environmental criteria and expect Return on Impact.
