

GENERAL PROCUREMENT NOTICE

Programme Title: “Green Recovery Fund for Ukraine”

Project: “Installation of the solar power plant (SPP) in Mykolaiv city, Ukraine”

Country: Ukraine

Sector: Energy

Source of Financing: Contribution of the Government of Denmark via the Ministry of Foreign Affairs of Denmark in a form of a grant funds (the “**Danish Support to Ukrainian Municipalities**”) to NEFCO Green Recovery Fund for Ukraine (the “**Green Recovery Fund**”)*

Procurement: works, goods and services

Notice Type: General procurement notice

Publication Date: 15 January 2026

The Mykolaiv City Council, through the Regional Utility Company “Mykolaivoblteploenergo” (“MOTE”), which is wholly owned by the City of Mykolaiv, plans to announce tenders for the procurement of works, goods and services under the project “**Installation of the solar power plant (SPP) in Mykolaiv city, Ukraine**” (the “Project”).

Within the implementation of the Project, an open tender procedure is envisaged, following which a contract will be awarded to the successful tenderer for the design (including the performance of site surveys and investigations) and the full scope of construction works for a 9.9 MW solar power plant, including the installation of the relevant electrical networks and the connection of the SPP to the power grid.

The tender will be open to any firms and individuals from all countries. A procurement notice under the open international tender procedure will be published separately when it becomes available.

The tender is expected to commence in the first quarter of 2026.

The grant is provided by the Government of Denmark via the Ministry of Foreign Affairs of Denmark, through the Nordic Environment Finance Corporation (“NEFCO”), as the facility manager of the Green Recovery Fund. The grant beneficiary is the **Mykolaiv City Council**. The tender and the subsequent contract financed from the grant funds shall be governed by NEFCO’s Procurement Policy and Procedures.

The contract award and commencement of works are planned for the second quarter of 2026.

** The primary objective of the Programme under which this Project is being implemented is to provide financial and technical assistance to Ukrainian municipalities for recovery and reconstruction in an environmentally sound manner, as well as to support them in the development of local green recovery plans and in ensuring a pathway towards sustainable reconstruction and greener recovery. In addition, the Programme will contribute to improving living conditions for urban residents and internally displaced persons (IDPs).*
