

GENERAL PROCUREMENT NOTICE

Programme Title: Ukraine Green Recovery Programme

Project Name: Recovery of water supply from well of the village of Zbroshkove to the village of Domanivka with reconstruction of external networks

Country: Ukraine

Sector: Water Supply

Funding Sources: Government of Denmark through the Ministry of Foreign Affairs of Denmark ("MFA-DK") via the Nordic Environment Finance Corporation (NEFCO) Green Recovery Programme for Ukraine ("Green Recovery Programme"), and local co-financing funds.

Procurements: Works, Goods and Services

Notice Type: General Procurement Notice

Publication Date: 01 April 2026

The grant recipient – Domanivka Village Council, through the Municipal Utility Company "Domanivske", which is fully owned by the Village of Domanivka, intends to announce tender for the procurement of works, goods and services under the Project: "Recovery of Water Supply from well of the village of Zbroshkove to the village of Domanivka with reconstruction of external networks" (the "Project").

Project and relevant procurement financed by the grant funds provided by the Government of Denmark through DMFA, administered by the fund manager and development partner – NEFCO, as well as with co-financing from the Domanivka Village Council

The tender announcement is expected in the second quarter of 2026.

The Project aims to ensure the supply of drinking water to Domanivka village through the construction of a main water pipeline from Zbroshkove village within the Domanivka community, along with the overall modernization of the community's water supply system. In addition, the Project will improve environmental conditions and living standards for more than 6,000 residents, including internally displaced persons (IDPs), who will gain access to a reliable and sustainable water supply.

Scope of Works (including but not limited to):

- Preparation of design and cost estimate documentation, including engineering surveys;
- Reconstruction of pumping equipment at water intake bore well in Zbroshkove and Domanivka villages;
- Construction of booster pumping stations for water supply (PS-1 and PS-2);
- Installation of a main water pipeline between Zbroshkove and Domanivka;
- Installation of clean water underground storage reservoirs at the site of water intake bore well in Domanivka village;
- Construction of a solar power plant at the site of water intake bore well in Domanivka village;
- Installation of power supply systems, including backup power sources;
- Installation of an automated monitoring and control system (SCADA).

Given the diverse and complex scope of works under the Project, potential tenderers are encouraged to consider forming consortia or partnerships with other companies in order to submit comprehensive proposals.

Contract signing and commencement of works are expected in the third quarter of 2026, with completion no later than the fourth quarter of 2027.

Tenders and subsequent contracts financed by grant and budget funds will be subject to NEFCO's Procurement Policy and Procedures ([NEFCO Procurement Policy and Procedures 2021_eng](#)).

Grant and budget funds may not be used for any payments to individuals or entities, or for the import of any goods, if such payment or import is prohibited by a decision of the United Nations Security Council taken under Chapter VII of the Charter of the United Nations, or under the laws or official regulations of Ukraine.
